

LEFSTIN, JEFFREY A.

Articles

Claim Construction, Appeal, and the Predictability of Interpretive Regimes, 61 U. MIAMI L. REV. 1033 (2007).

The Measure of the Doubt: Dissent, Indeterminacy, and Interpretation at the Federal Circuit, 58 HASTINGS L.J. 1025 (2007).

Note, *Does the First Amendment Bar Cancellation of REDSKINS?*, 52 STAN. L. REV. 665 (2000).

Mutations in the Glucocorticoid Receptor DNA-binding Domain Mimic an Allosteric Effect of DNA, 301 J. MOLECULAR BIO. 947 (2000) (with Marc A.A. van Tilborg *et al.*).

Allosteric Effects of DNA on Transcriptional Regulators, 392 NATURE 885 (1998)(with Keith R. Yamamoto).

Influence of a Steroid Receptor DNA-Binding Domain on Transcriptional Regulatory Functions, 8 GENES & DEV. 2842 (1994) (with Jay R. Thomas & Keith R. Yamamoto).

Three-Dimensional Organization of Chromosomes Studied by in situ Hybridization and Optical-Sectioning Microscopy, 1205 PROC. SOC. PHOTO-OPTICAL INSTRUMENTATION ENGINEERS 11 (1990) (with Yasushi Hiraoka *et al.*).

Dissertation

Allosteric Modulation of Transcriptional Activation Functions by the DNA-Binding Domain of the Glucocorticoid Receptor (1997) (unpublished Ph.D. dissertation, University of California, San Francisco) (on file with the Northern Regional Library Facility).
